Standard Textile's entire Classic line uses 100% long-staple ring-spun cotton, adding considerable strength over open-end yarn construction. Fast selvages secure the fabric, preventing detached hems and fraying. The result is Classic terry that stands up to industrial laundering. Plus, Standard Textile's Classic terry arrives pre-laundered, ready to use right out of the box, eliminating up-front processing costs. Classic terry delivers all of these cost savings at a budget price. That's Value Engineering!

products are delivered clean, fresh, and ready to use right out of the box, bypassing the time, labor, and costs of up-front processing.
